---

### PROFILE

Junior programmer with proven skills in C Language, JavaScript, HTML/CSS, Java and Python. Focused on keeping a tight architecture in order to minimize errors and bugs. Offering a strong foundation in software engineering and the newest knowledge within database management.

I am deeply committed to continuous learning and staying updated with the latest advancements in technology. I am particularly interested in exploring areas such as artificial intelligence, Data Science, and web development, with a keen desire to contribute meaningfully to innovations that shape the future of computing.
